SIMPLE DESIGN

Dal legno che è da sempre alla base del successo delle nostre porte nasce **QUADRA**, perfetta combinazione di consistenza e valore del LEGNO MASSELLO con leggerezza e contemporaneità nel design.

Le porte di questa collezione caratterizzate da una naturale dinamicità e al tempo stesso da una estrema capacità di superare indenni nel tempo le mode, sono state pensate per dare movimento a spazi abitativi ricercati nel rispetto dello stile e della sobrietà.

Wood has always been the base for our success with doors - in this mentality was born **QUADRA**, perfect match of consistency and value of MASSIVE WOOD, with lightness and contemporaneity in design.

The doors of this collection are characterized by a natural energy and, at the same time, an extreme capacity to stay unscathed through fashion years; they were thought to give movement to home spaces, always keeping an eye to style and sobriety.

Двери из дерева наиболее любимы, популярны и востребованы всегда. Следуя запросам рынка была создана **QUADRA** - идеальное сочетание массивного дерева с лёгкостью современного дизайна.

# EFFEZERO

ANDREA CASTRIGNANO  
INTERIOR DESIGNER

Il disegno, la pittura e la scultura, non sono forme di espressione tradizionali, ma originarie, appunto per questo anche del futuro. La combinazione tra regola e caso, è vita, arte, fantasia ed equilibrio, ed è proprio a tale principio che si ispira **EFFEZERO**.

Nuova collezione nata dalla collaborazione con l'effervescente Interior Designer Andrea Castrignano, ed utilizzata per la realizzazione del Suo progetto di ristrutturazione all'interno del programma televisivo **CAMBIO CASA CAMBIO VITA**. Attraverso l'uso di materiali nobili Andrea Castrignano ha disegnato per noi una porta dal delicato profilo e assolutamente attuale con effetto di grande leggerezza. Realizzate in legno di frassino e rifinite con nuove tecniche nell'assoluto rispetto dell'ambiente, le porte della collezione **EFFEZERO** trasmettono originali e delicate sensazioni: superfici ampie e pulite abbinate alla morbidezza di una struttura naturale suggeriscono un effetto di continuità e naturalezza. Nella progettazione di una porta ci proponiamo di sintetizzare funzionalità, estetica e qualità.

Design, picture and sculpture, are not ways of traditional expression, but originating, also, of the future. The combination between rule and chance, is life, art, fantasy and balance, and to this principle is **EFFEZERO** inspired to.

A new collection created from partnership with sparkling Interior Designer Andrea Castrignano, and used to realize his restauration project, within the TV program **CAMBIO CASA CAMBIO VITA** (Change House Change Life). By using noble materials, Andrea Castrignano has designed for us a door with a delicate profile, absolutely actual, with a great lightness effect into it. Realized in ash wood and refined with new techniques with total respect for the environment, the doors from **EFFEZERO** collection convey authentic and minute sensations; wide and clean surfaces combined with the softness of a natural structure suggest an effect of continuity and naturalness. When designing a door, we propose ourselves to summarize function, aesthetics and quality.

Рисунок, живопись и скульптура, не только формы традиционного выражения, но оригинальные и актуальные в будущем. Комбинация правила и случая, жизни и искусства, фантазии и баланса – принцип, вдохновивший на создание **EFFEZERO**. Новая коллекция родилась посредством сотрудничества с дизайнером Andrea Castrignano и была реализована для его проекта реконструкции помещения в рамках телепрограммы «**МЕНЯЮ ДОМ – МЕНЯЮ ЖИЗНЬ**».

Используя благородные сорта дерева Andrea Castrignano создал для нас дверь. Материал – ясень, отделка по новейшим технологиям с соблюдением всех норм по охране окружающей среды. Оригинальные двери коллекции **EFFEZERO** – это просторные и чистые поверхности в сочетании с мягкостью естественной структуры, создающие эффект непрерывности и естественности. При создании двери мы предлагаем синтез функциональности, эстетики и качества.

# RESIN-A

EMANUELE BALERI  
DESIGN

La collezione **RESIN-A** nasce dalla contemporaneità dei materiali. La miscelatura di ingredienti minerali naturali, calci idrauliche ad alta resistenza, polveri di marmo, sabbie naturali e leganti a base acquosa, hanno portato all'ottenimento di un prodotto di copertura dalle elevatissime caratteristiche di aggrappaggio, durezza, flessibilità e dalle morbidezze estetiche uniche. Dall'aggiunta di sole terre e pigmenti naturali, si sono raggiunte le calde e contemporanee colorazioni, ed il particolare ciclo di finitura garantisce alle resine della collezione, lavabilità, idrorepellenza e resistenza chimica, nonché l'aspetto estetico finale.

I pezzi unici ed autentici della linea **RESIN-A**, vengono garantiti dall'artigianalità per ogni passaggio della lavorazione. La non costante materialità, eventuali segni, la non perfetta complanarità, ombre e colorazioni non costanti, appositamente voluti, non sono da considerarsi "difetti", bensì la certezza del valore di una componente artistica. Ogni porta della collezione **RESIN-A**, sarà diversa da un'altra proprio come una vera opera d'arte.

**RESIN-A** linee moderne, contemporanee e di assoluta eleganza.

Le porte si aprono a nuovi orizzonti.

The **RESIN-A** collection was born from the contemporaneousness of materials. The blend of natural mineral ingredients, high-resistance hydraulic limes, marble dusts, natural sands and water-based binding parts, has led to obtaining a covering product with extremely high characteristics such as gripping, hardness, flexibility and with a unique aesthetic softness.

By only adding soils and natural pigments, one has achieved the warm and contemporary tones, and the particular procedure of the finishing guarantees the resins of the collection the washable, water-proof and chemical resistance peculiarities, as well as the final aesthetic aspect.

The unique and authentic products part of the **RESIN-A** Collection are guaranteed by the craftsmanship through every single step of the production. The non-constant materiality, eventual signs, the not perfect coplanar system, shadows and not uniform finishing, made on purpose, are not to be considered "faults", but rather the certainty of the value of an artistic component. Every door of **RESIN-A** collection will be different from another, just like a true work of art.

**RESIN-A** modern, contemporary lines, absolutely elegant.

The doors open to new horizons.

Коллекция **RESIN-A** рождена из современных материалов. Смешивание ингредиентов натуральных минералов высокой устойчивости, мраморной крошки, речного песка и связующих на водной основе, позволили создать новый продукт с превосходным покрытием. Основные характеристики которого: твердость, прочность, гибкость и визуальная мягкость одновременно. Благодаря добавкам грунтов и натурального пигмента удалось получить новые, теплые тона окрасок. Покрытие «резина» гарантирует гидроизоляцию, устойчивость к химическим воздействиям, влажную чистку поверхности, сохранив при этом все эстетические аспекты продукта. Каждый продукт линии **RESIN-A** уникален и неповторим, благодаря ручной работе в каждом из циклов производства. Неоднородность материала, видимые следы, неровность поверхности, неоднородные оттенки и цвета – специально желаемые эффекты, не должны рассматриваться как недостатки, а как ценные компоненты современного искусства. Каждая дверь коллекции **RESIN-A** будет отличаться одна от другой именно как настоящее произведение искусства.

**RESIN-A** – модерн, современность и абсолютная элегантность.

Двери открывают новые горизонты.

Ogni manufatto AGOPROFIL® viene trattato singolarmente con lo scopo di dare al legno e alle finiture un aspetto dalle caratteristiche particolari. Questo prodotto viene realizzato adottando rifiniture speciali e materiali sottoposti a trattamenti artigianali: proprio per questo è unico ed originale e qualunque "diformità" in esso presenti all'acquisto o in seguito non è da considerarsi tale ma una conferma della sua unicità.

Every AGOPROFIL® product is singularly treated, aiming to give a peculiar look to wood and finishing. This product is realized by using special finishes and materials coming from handcraft treatments; for this right reason it's unmatchable and original, and any sort of "deformity" in itself at the time of purchase or later is not to be considered as such, but a confirmation of its uniqueness.

Каждый элемент AGOPROFIL® обрабатывается вручную с целью придать дереву и отделкам особенные характеристики. Изделия, реализованные с использованием специальных материалов обработанных ремесленниками, превращаются в уникальные подлинные шедевры. Любое "деформирование" в момент покупки или в дальнейшем использования не следует рассматривать как таковое но лишь как подтверждение подлинности и уникальности продукта.

La nuova serie 600 offre la possibilità di realizzare intarsi, incisioni profonde con risultato effetto tono su tono, anche a richiesta. Tutto ciò grazie ad innovazioni tecniche che permettono di mantenere la linearità della superficie del pannello, con il pregio di tagli a 45°.

## THE PLEASURE OF COLOURS

Il modello **270** si divide in **versione incisa A** ed in **versione incisa B** per quanto riguarda i sistemi di apertura ad una sola anta (**1A**). Il disegno (inciso) dei modelli **270A** e **270B** sarà sempre identico, non specchiato, su ambo i lati. La versione a doppia anta (**2A**) viene definita **270 versione incisa C** e comprende un'anta **270A** ed un'anta **270B**, tale da formare su ambo i lati un "semicerchio" formato da cerchi disposti a raggera.

Model **270** can be done in the **engraved version A** and in the **engraved version B**, regarding the opening systems with one leaf (**1A**). The (engraved) drawing of models **270A** and **270B** will always be identical, not mirrored, on both sides. The double-leaf version (**2A**) is named as **270C** and includes one leaf **270A** plus another leaf **270B**, in order to combine each other and create on both sides a "semicircle" made up of many circles arranged as an halo.

Модель **270 ОДНОСТВОРЧАТАЯ (1A)** делится на две версии: **фрезировка А** и **фрезировка В**. Рисунок фрезировки моделей **270A** и **270B** будет всегда одинаковым и **НЕ ЗЕРКАЛЬНЫМ** с двух сторон полотна. Модель **270 ДВУХСТВОРЧАТАЯ (2A)** имеет **фрезеровку С**, которая включает модель **270A** и **270B**, образуя с двух сторон полукруг заданного радиуса.

Le porte AGOPROFIL® sono pezzi unici ed autentici, vere e proprie Opere d'Arte. Finiture preggiate e legni nobili contraddistinguono i prodotti, pertanto la non costante materialità, eventuali segni, pennellature, la non perfetta complanarità ed eventuali diversità dei decori, appositamente voluti ed ottenuti attraverso procedimenti manuali, non sono da considerarsi difetti bensì la certezza del valore di una componente artistica.

Dato il costante impegno volto al miglioramento della qualità del design, potrebbero essere apportate delle modifiche ai manufatti senza obbligo di comunicazione. Le informazioni riguardanti le caratteristiche tecniche contenute in questo catalogo sono suscettibili a variazioni senza preavviso.

Per l'oggettiva impossibilità di riprodurre fedelmente in stampa le variegate tonalità del legno e delle laccature delle nostre porte, le immagini del presente catalogo non sono vincolanti ai fini della fornitura delle porte stesse.

**AGOPROFIL®** doors are unique and authentic pieces, true artistic works. Precious finishing and noble woods distinguish the products, therefore the non-constant materiality, eventual signs, strokes, the not perfect coplanar system and the eventual differences of decorations, purposely thought and obtained through handmade procedures, are not to be considered as faults but the certainty of the value of an artistic component.

Given the constant commitment towards a better quality of design, some changes to the products might be applied. The information concerning technical characteristics in this catalogue are susceptible to change without notice.

Because of the objective impossibility to reproduce exactly in print the many-coloured shades of the wood and the lacquering of our doors, the images of this catalogue must not be considered binding for what it concerns the supply of the doors themselves.

Двери AGOPROFIL® – единственные и уникальные в своём исполнении, подлинные и настоящие произведения искусства.

Отличительные черты продукции - ценные породы дерева и качественные отделки, несмотря на «неидеальность» материала: явные следы мазков, неоднородность и неровность швов и поверхностей, возможные различия в тональности декоров.

Созданные вручную вышеперечисленные «изъяны» не должны рассматриваться как дефекты, а как художественные элементы, отличающие изделия ручной работы.

Забочаясь о постоянном улучшении качества и дизайна производитель оставляет за собой право вносить изменения в материалы и технологию отделки.

Из-за невозможности передать в печатном виде настоящий цвет дерева и покрасок, все отделки и цвета в каталоге ОТНОСИТЕЛЬНЫЕ и не могут оспариваться в случае отличия цвета конечного продукта от напечатанной картинки.
